Subject: RE: item #332 Luscomb Building

Council Member Todd Gloria,

I'm asking that you vote to overturn the historic designation of the Luscomb building at 1797 San Diego Avenue, because it's a factual error to say that it retains sufficient integrity to the period of significance, 1927, to represent "programmatic architecture". The building has gone through drastic changes over the years that have altered too many components for it to be an asset to the community.

I live in the area, so I know that it doesn't look like a castle when you drive by, It just looks like an odd old stucco building. It's in a deteriorated condition and not functional as is; anything the owner wants to do to it would be an improvement.

Thank you,

Sharon Gehl
